Spectroll

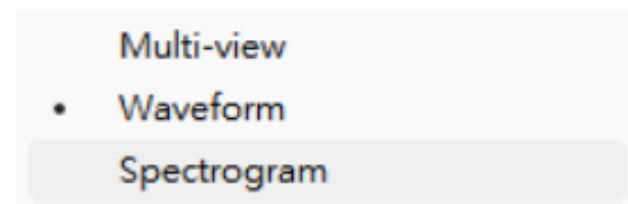

Let me open  **Audacity**® and analyse the weird audio!

Seems nothing special!

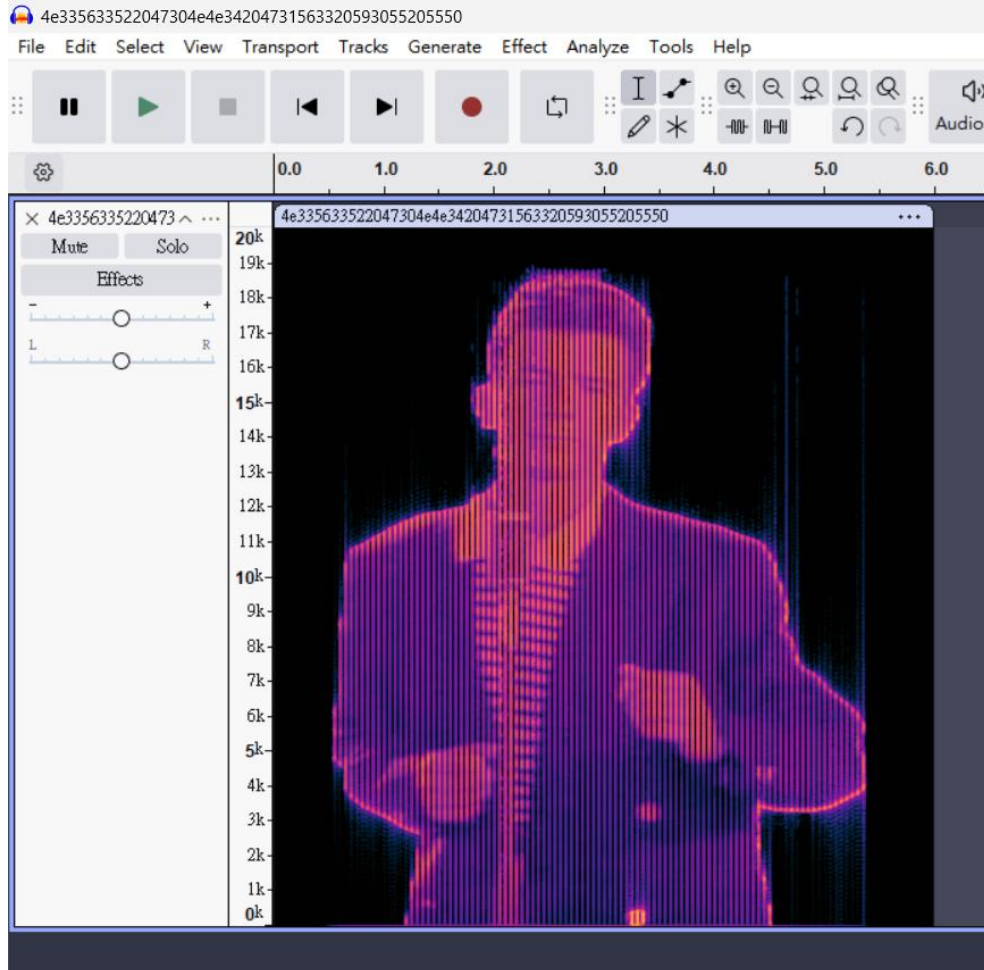

Emm... The problem name is “Spectroll”...

Maybe I should try viewing its spectrogram!

Spectroll

...

Turns out the problem name is pointing out that the **spectrogram** is just a rick**roll**...

You are quite smart if you are able to discover this **troll**... 🤖

Ok, so what's the solution for this problem? I won't tell you. 😊

Introvert

You can solve this problem in the apparent way...

However, there are actually cases like this in the input:

5

X.X.X

How ~~you~~ I would deal with it?

I would probably choose to find somewhere else to sit.

T C 2 5 X 4

MonoType

OUTPUT

Output *S* using your monospaced font.

Each letter should have the same width and height, and be visually distinct from the others.
The same letter must always have the same design within your font.

SortPro

Please help me sort the
following numbers:
30, 62, 47, 3, 0.

OK! The sorted sequence is:
47, 62, 30, 3, 0.

That's right! Thank you.

Dear those who want to solve this problem but can't ,

I will be happy to tell you the answer
if you create a better game that replaces my game.
